## ABOUT ME

As a Frontend Developer, I specialize in building modern web applications that align closely with business goals. I bring a deep understanding of the frontend development lifecycle and experience working within Agile methodologies, contributing effectively as a team player. I'm also deeply committed to continuous growth both professionally and personally.

## WORK EXPERIENCE

**Insiders** Lviv, Ukraine  
**Frontend Developer**  
09/2024 – 04/2025  
I was involved in several projects, including an internal platform built for the staff of a Canadian construction company to streamline daily operations and improve user experience.

- Developed UI using React
- Collaborated with backend developers to design and integrate RESTful APIs
- Communicated regularly with stakeholders to gather feedback and align on requirements
- Integrated Google API services and optimized usage by reducing redundant calls, resulting in lower external service costs
